

ADVANCED ANATOMY FOR SUPERFICIAL SURGERY OF THE FACE:

Applications for Safe Practice, Flap Design and Execution

JUNE 13, 2026

The Department of Clinical Anatomy is hosting a half-day course with independent hands-on dissection and practice of flaps using fresh frozen cadavers. Participants will have the opportunity to work in an advanced clinical anatomy laboratory under the guidance and expertise of experienced Mohs Surgeons.

When and Where

DATE & TIME: Saturday, June 13, 2026 – 12:00 PM to 5:00 PM, during the American Association of Clinical Anatomists annual meeting at Mayo Clinic

LOCATION: Mayo Clinic Rochester, MN

Department of Clinical Anatomy Laboratory

FACULTY: Nirusha Lachman Ph.D., Christopher Miller M.D., Kevin N. Christensen M.D., Ashley Wysong M.D., and Junqian Zhang, M.D.

REGISTRATION: Early Bird: \$950 (Deadline: March 14) Standard: \$1000 (Deadline: May 15), Register at: [Advanced Anatomy for Superficial Surgery Registration](#)

Course Highlights

- 5 hours of high-quality targeted dissection (2 participants per cadaver head)
- Danger Zone Anatomy: Layer-by-layer dissections to identify motor nerve branches in critical areas
- Reconstructive Pearls Masterclass: Nose, Lips, and Ears techniques to avoid full-thickness defects
